OVERVIEW

Pursuing a Bachelor of Science in Computer Science. Strong passion for software engineering and looking to obtain a professional position where I can leverage my technical skills, communication skills, and independent thinking abilities.

EDUCATION

Roosevelt University | Chicago, IL   Expected Dec 2020
Bachelor of Science in Computer Science   *Cumulative GPA: 3.87*
- Dean's List

Oakton Community College | Des Plaines, IL   Aug 2017 – Dec 2018
Associate's in Liberal Arts   *Cumulative GPA: 3.86*
- Dean's List
- President's Scholar

TECHNICAL SKILLS

Languages: Java, JavaScript, VBA, HTML5, CSS3
Frameworks: Node.js, Express.js, Mongoose, React, Spring, Spring Boot, Hibernate
Databases: MySQL, MongoDB, SQLite
Developer Tools: Git, Linux Command Line, Postman, RESTful APIs, Wireshark, Microsoft Office Suite, Maven, NPM

PROJECTS

Customer Manager | *Java, Spring Boot, Spring Security, Hibernate, MySQL*
- Developed a full-stack web application using Java and Spring Boot to manage a local companies customer database
- The application allows for adding, updating, and deleting customers
- The customer information is loaded from and saved to a MySQL back end database

Daily Blog | *JavaScript, Node,js, Express.js, MongoDB*
- Developed a blog site using JavaScript and Node.js
- The blog information is loaded from and saved to a MongoDB back end database
- Users are capable of submitting blog posts as well as deleting them

Anon-A-Tweet | *JavaScript, Node.js, Express.js, MongoDB, Google OAuth*
- Developed a micro social media platform using Java and Node.js
- Implemented Google OAuth 2.0 to allow users to sign in with Google
- Connected the application to a MongoDB back end database to store user login and tweets

SPECIALIZED COURSES

Computer Science I & II, Database Systems, Network Applications Program, Computer Networking, Introduction To Algorithms, Computer Networking, Theory Of Computation

EXPERIENCE

Upkey | Chicago, IL   June 2020 – July 2020
Entrepreneurial and Technology Intern
- Developed technical, financial, and analytical skills through a series of projects
- Provided marketing and sales support and conducted industrial research
- Assessed risk of a company's plan to expand into a new market by analyzing financial statements, market, and industry data

Wendy's | Des Plaines, IL   June 2016 – July 2017
Crew Member
- Worked in a face-paced environment serving 150 clients per day
- Completed extensive cash handling and ensured 100% balanced accuracy in the register
- Managed daily operations with a team of 5
